WHAT ARE THE EDUCATIONAL PROGRAMS?

The SEEK Educational Program - the Search for Education, Elevation, and Knowledge - is the higher education opportunity program at the four-year CUNY colleges. It was established to provide comprehensive academic support to assist capable students who otherwise might not be able to attend college due to their educational and financial circumstances. Students are admitted without regard to age, sex, sexual orientation, race, disability, or creed.

The College Discovery (CD) Educational Program is the higher education opportunity program at the two-year CUNY colleges. It was established to provide comprehensive academic support to assist capable students who otherwise might not be able to attend college due to their educational and financial circumstances. Students are admitted without regard to age, sex, sexual orientation, race, disability, or creed.

The Accelerated Study in Associate Program (ASAP) is found at all CUNY community colleges except the New Community College (NCC) and helps motivated students complete an associate degree within three years. ASAP students graduate at significantly higher rates than their peers. ASAP students study in cohorts by major in a consolidated schedule and receive comprehensive advisement, career, and academic support. Financial resources include tuition waivers for financial aid eligible students and free use of textbooks and MetroCards. ASAP targets students who are Pell or TAP eligible and have two or fewer developmental needs in reading, writing and math based on their scores on the CUNY Assessment Test.
